

Salient Features:

- Better Fault Level in comparison with SMC
- Faster assembly, Hence time saving
- Better Strength due to more gripping area
- Inventory management is easier
- Lighter in weight due to less specific Gravity
- Extra durability
- Push Fit type fitment
- Compact & Unique design
- Better Class of Flammability
- Hardware & Manpower saving

Properties	Units	Values	
		SMC	Moulded
Short Circuit	KA	65	80
Dielectric Strength	KV/mm	11	26
Flammability		Self extinguishing	FV0

Salient Features of Insulators:

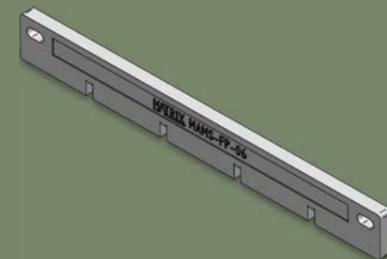

- Withstand Capacity of 40 KV for 1 minute
- Tested at 25KA for 3 seconds short circuit level
- HT bolt of 16 and 12mm moulded with the insulator to give better strength
- Raw material used in the product ensures self extinguishing properties

MAMI - 75X130
ALSO AVAILABLE IN MAMI - 50X130

Salient Features of moulded 4 pole support:

- Dielectric strength of 26 KV
- Tested at 80KA short circuit level
- The product reduces hardware and metal components enhancing better productivity

MAMS-FP-06 / MAMS-FP-10 / MAMS-FP-12
